

## **KM Conference 2019**

**26 - 29 June 2019, Warsaw, Poland**

**Themes: Knowledge Management, Learning, Information Technology**

<http://www.iiakm.org/conference/>

### **Conference Workshop**

## ***Knowledge Sharing: Together We Can Do it Better***

**Dr. Boštjan Delak**

Assistant Professor, Faculty of Information Studies, Novo Mesto, Slovenia

### **Workshop Overview:**

The workshop will focus on effective complex problem-solving that requires knowledge sharing among team members, and includes two parts: team building and knowledge sharing. The first part will serve as a warm up for the teams, which will include some hands-on collaborative and dynamic team building exercise. Then, the second part of the workshop will allow each group of participants to work as a dynamic team to demonstrate their knowledge, skills, and experiences. The main issues at both parts of the workshop will be a quick and effective analysis of the situation, while working as a dynamic team to set up the plan on how to solve the problems presented to the team. Knowledge sharing and communication among all team members will be vital for the success of the team. This workshop will allow the participants to engage with a group to achieve both parts, while bonding long-term relationships. In order to be successful, participants will need to use a variety of communication skills that will allow them to collaborate and be an effective team member. The workshop will also offer an opportunity for participants to reflect on the success of their group's communication and knowledge sharing channels. At the conclusion, insights, based on the experiences gained by the teams will be discussed.

### ***Main Topics:***

- Analysis of the situation
- Knowledge sharing within a team
- Collaboration and teamwork
- Reflective analysis on team building activities

### **About the Workshop Facilitator:**

**Boštjan Delak** is an Assistant Professor at the Faculty of Information studies, in Novo mesto, Slovenia, where he teaches: Evaluation, Testing and Auditing of Information systems and Basics of Information Security.
